

# 1. Graphic Interface Planning: Select your iconography

## Diseño de Interfaces Web - Bilingüe

Rebeca Martínez de León, 2º DAW

## **Index**

1. Iconography.....	2
2. Bibliography .....	3

## 1. Iconography

The website should have a shopping cart icon for the button that takes you to the page where you can buy the items you've selected. There would also be a person icon to log in and after logging in it would be changed to the user's profile picture if they have one selected. We also need icons for the different social media of the website like Twitter or Instagram. Finally, there would also be a flower icon next to the section you are currently in on the menu.

Icons should be set to a bold version when you hover over them.

## 2. Bibliography

Here are the resources I used to elaborate this PDF.

There are no sources in the current document.
